" Kentneky June."

This new variety of Peach was origi-

nated by me in Hopkins county, and 48-tf bore its first fruit in 1878, ripening from June the 5th to 10th. I grew it from the seed of a budded peach. It is very e sadness and parting only were given to brighten the loy of this day in heaven. large for so early a peach, nearly round, skin a yellowish white, splashed nearly all over with bright red, very rich, juicy and highly flavored, seed very small, a fine, strong grower and good bearer,

> This is undoubtedly the earliest peach week before Amsden's June, two weeks before Early Beatres, from one to two weeks before the Alexandria, and I am DAVID WHITTINGHILL Madisonville, Hopkins Co., Ky.
